Meeting Notice

The next AARC meeting will be held on **July 14 at 7:30 PM at the NRAO Building on the UVA Grounds. The program will be a forum on Directed Net Operations.** Sounds interesting – see you there!

The President's Letter

Dave, K4DND

Greetings all. Now that Field Day is over (but not everything is yet put away) we can take a breather. June was a very busy month for the AARC. First, the **MS-150 Tour de Vine** on the weekend of June 12-14 occupied 20 club members who contributed approximately 360 person hours to the support of over 400 tour cyclists. I want to thank each and every one of you for your participation and contribution. It has been a long time in AARC Public Service since we had such participation that didn't involve phone calls and arm twisting; none of that was required this year. Everyone stepped forward, volunteered to help and performed amazingly, despite confusion over the complicated course layout, course marking fuzziness and rest stop location and renumbering. It was all new this year, from the Start/Finish through every detail in between, so we all faced challenges doing the job and doing it well. The MS folks were very pleased with our efforts, and look for us again next year. An interesting aside to this year's operation was that all mobile stations were equipped with APRS transmitters, and for the first time SAG movements were coordinated based on APRS data.

Then after a 2 week rest we were back in business with **ARRL Field Day**, held once again at the Earlysville Fire Station. **I want to thank Bill N0WP and Jim K4CGY for heading up our FD operation.** Great job guys! Thanks to Don N4UVA, for being the interface between the AARC and the Earlysville Volunteer Fire Department. A special thanks to EVFD President John Sweeney and all the rest of the men and women of that station for being such gracious hosts.

I have to confess that I was a bit skeptical of the location since many of the trees that had been used in the past were

gone. But things worked out just fine. We were able to get our 160M Windom oriented N-S close to where we have had it in the past, and use that antenna for the digital station. Jim K4CGY got dipoles for 80M, 40M and 20M hung in trees at the bottom of the parking lot for our other two stations. Thanks to George AA4D for the loan of the 6KW generator that operated those two lower stations. Dinner Saturday evening was great. **John KI4DJT did a masterful job on the grill as always** and the side dish contributions were superb.

We had a good turnout of club and non-club members. There never was a large accumulation of people, but a steady turnover of participants and guests throughout the weekend, with at least 5 visitors interested in getting licensed. Based on best guess recollection and after conferring with the FD Co-Chairs, I put the AARC member attendance at 37, with 17 visitors (6 of whom are licensed but not club members, 5 of whom expressed interest in getting licensed). Sounds to me like it is time to get a VE session on the calendar.

The club operation was a good mixture of modes, but limited in bands worked. Most activity was on 20, 40 and 80M. We were able to work 71 sections; we missed a few out west as well as some of the Canadian sections, but not from a lack of trying. Those sections missed this year were: from "4" land, Virgin Islands, from "6", East Bay, from "7", Eastern Washington, from "0", North and South Dakota, and from Canada, Newfoundland, British Columbia, Northwest Territories, and Manitoba. Not bad. Kudos to Alan K9MBO for working W1AW on 40M phone.

We made about 275 CW contacts (thanks to Bob W4RQ, Dennis WR4I, Roger W4EI and Alan K9MBO), **106 Digital contacts** (thanks to Bill NOWP) and **506 phone contacts** for a **total of 887 contacts** for the FD period. 37 contacts were made on 15M, 389 contacts on 20M, 322 on 40M and 139 on 80M. For a further breakdown:

	CW	DIG	PH
15M	37	0	0
20M	87	105	197
40M	111	0	211
80M	40	1	98

I don't have the final submitted score yet, but with bonus points the AARC should make a very respectable showing.

What can we do to improve FD for next year? This is the time for you to get your suggestions submitted in writing to the AARC. I can think of a couple of things right off the top. We should provide drinks for the dinner; thank you, I have been beaten enough over that one. Next year, we should have a GOTA station. I realized this is too late and I take full responsibility for it. We had many club members and visitors who were not able to sit in front of a radio, spin the dial and listen, as well as have the opportunity to transmit. That is what the GOTA station is intended to provide, and next year we will do that.

But despite small deficits in our plan, it was a great weekend, well attended and I thank each and every one of you who made it happen, from set up to take down, it was a great pleasure to work with you all. So don't wait, if you have suggestions that can make our FD more enjoyable next year, now is the time to get them into your AARC leadership.

Thanks again AARC for your support and participation, have a fun, safe and enjoyable 4th of July, and see you at the July club meeting on the 14th.

What's new this month has to include the **addition of the Photo Gallery to the club website by Kenneth (KJ4KIH)**. If you go to <http://www.albemarleradio.org> and from the home page look to the list at the right and down near the bottom you will find the link to the Photo Gallery. Click on that and you will be looking at the various albums located there. If you have pictures you would like to submit to be posted to the Photo Gallery you can email them to: jecrosby@comcast.net.

The **2009 Edition of the Member Directory** was introduced at the last meeting and will be available at the July meeting as well. While you are at the meeting be sure to pick up your copy.

I still have **club ID Badges** that have not been picked up. They will be available at the meeting as well.

It looks like we are going to have a great Field Day and I will miss it because I have to be out of town on those exact dates.

The program last month seemed to be received well according to the follow-up comments. **The program this month will feature a forum on Directed Net Operations**. We will review the ARES Guidelines for conducting a Directed Net and discuss "best practices." The program is titled "Communications – The Essence of Human Relationships." It is expected to run about 45 minutes + or – depending on the discussions but will be kept to 60 minutes at the most.

Reach out and grab a friend – fellow ham or someone you can interest in ham radio – and twist their arm ever so slightly to encourage them to attend the meeting with you -- the more we have present, the better the fellowship!

Estate Committee Update

Linda, KI5LLB

Fund Raiser Information. Computer woes are over, new computer fixes problem. Now (at last and for the last time) **I need you T-shirt size, the call sign you want on the shirt and the number of shirts you want to order.**

I am ordering them from a different place because **several people want V-neck and pocket. If you are in that group please let me know. The shirts will be bright blue and have AARC over you call sign.** I won't know the price until I know how many shirts I will be ordering. The more I order the lower the price. **They will be below \$20 and maybe below \$15 if we place a large order.** Please get back to me by the 20th of July. I will order that afternoon.

Some of you wanted jackets and hats as well. The best price right now is at WearGuard at www.ShopAramark.com. They are having a really good sale and will do the monogramming or screen printing as well. They have t-shirts with pockets, but I don't think they have V-necks. You can send them the logo as well. Their phone # is 1-800-388-3300. Jacket #SED-414 is the one some of us are ordering. The hat # is SED-918. They also have safety vest and T-shirts.

Estate Committee Information. We are going to have an auction at the August picnic. I promise some interesting bargain boxes and some nice things as well. There will, also, be some bargains. So come ready to do a little shopping. Please remember why we are doing this.
